

>> **Ahura Scientific's TRUDEFENDER FT** is a handheld FTIR system designed to identify unknown chemicals directly in the hot zone. Built specifically for haz-mat responders, TruDefender FT complements Ahura Scientific's FirstDefender Raman system to maximize in-the-field coverage of a broad range of unknown materials and mixtures. Weighing less than three pounds, it's ergonomically designed for easy use in Level A gear, withstands the rigors of field use, and is fully submersible in decontamination solution. Web site: www.ahurascientific.com. (978) 657-5555.
